# ENHANCEMENTS/REFINEMENTS – PEAK ADMIN PORTAL

Each month, we deliver enhancements that strengthen the Pinnacle Series platform's performance, reliability, and learning value. June's updates focus on ensuring a consistent experience across SCORM content, smarter assignment workflows, and streamlined administration—especially for organizations operating at scale.

## Content Management, Libraries & Subscriptions

- **Enhanced Support for Featured Libraries Across Multi-Partner Content**

*Update ID: 30230*

Featured Libraries have been optimized to maintain visibility and configuration when sourced from subscription libraries containing content from multiple providers. This improvement reinforces consistent presentation for curated learning collections.

- **Smoother Editing Experience for YouTube Video Links**

*Update ID: 30232*

Admins can now update YouTube video links without interruption. Interface responsiveness has been refined, ensuring changes are registered and saved efficiently.

## Performance and Assignment Logic Optimization

- **Improved Load Time for Assignment Management**

*Update ID: 29111*

The Assignment Management page now delivers faster load times, even when working with large and complex data sets—supporting more efficient administration for large organizations.

- **Assignment Automation Aligned with AD Group Sync**

*Update ID: 29202*

The auto-assignment logic has been fine-tuned to ensure users added to groups via Active Directory sync are enrolled in relevant learning paths without delay. This aligns training workflows with enterprise user provisioning.

- **Reliable Mapping from Assessments to Personalized Learning**

*Update ID: 30498*

Personalized learning plans connected to assessments are now consistently activated at the point of completion, enhancing the platform's ability to deliver just-in-time development aligned with user skill profiles.

## ENHANCEMENTS/REFINEMENTS – USER JOURNEY

### Peak Experience Enhancements: SCORM & Learning Flow

- **Consistent Completion Flow for SCORM Courses**

*Update ID: 26013*

SCORM course interactions have been refined to ensure that users can complete training without interface disruption, promoting uninterrupted learning progression.

- **Clear Score Reporting in Quiz Retake Scenarios**

*Update ID: 29043*

For quizzes with retake options, scoring now displays accurately and intuitively, helping learners track their progress and stay motivated.

- **Responsive Navigation on SCORM Launch Pages**

*Update ID: 29201*

Users can move through SCORM content using the “Next” button with greater consistency, ensuring a smoother user experience.

- **Learning Path Stability for SCORM Completion**

*Update ID: 30100 & 30110*

Enhancements to SCORM-based learning paths ensure logical progression and visibility. Completing one course no longer affects the visibility or navigation of other items in the path, enabling learners to clearly track what’s complete and what’s next.
